TERRIFIC CYCLONE.

It Sweeps Across the Mississippi Valley.

GREAT DESTRUCTION DONE.

Entire Towns Destroyed and Many People

Killed—West Tennessee and Northern Mississippi the Greatest Sufferers—Telegraph Wires Down and Full Details Are Unobtainable.

MEMPHIS, March 24.—Scattering reports coming to Memphis from points in west Tennessee and northern Mississippi, indicate that a terrific cyclone whirled up the Mississippi valley from the southwest yesterday afternoon, crushing and sweeping away everything in its mad path. The telegraph wires in every direction were twisted into tangles, and communication with the storm-swept territories were exceedingly difficult and unsatisfactory.

Trains from the east reached this city late in the afternoon and brought reports of widespread destruction. Passengers on the Yazoo and Mississippi Valley train told of the destruction of Tunica, Miss.

The Birmingham train, due in Memphis at 5:30 o'clock, could not get to Memphis until after 8 o'clock, men being compelled to chop and remove trees from the track between here and Kelly, which is about 14 miles from Memphis.

The swath of the storm as it crossed the Kansas City, Memphis and Birmingham railroad seemed to embrace a territory between Cooperville and Olive Branch. Dozens of houses, huge trees and barns were razed to the ground by the violence of the storm.

The damage at Tunica, Miss., was great. About 3:30 o'clock the sky in the southwest began to darken and a low wailing sound announced a storm. Within a few minutes the wind came along with terrible velocity, and with a swish and a whirl that portended danger. The first hard blow gave way to the cyclone, and houses were crushed like eggshells.

The ruthless visitor lingered over the town scarcely two minutes, and yet in that time the greater part of the town was destroyed. The Knights of Pythias and Masonic hall is now a heap of timber. The roof of the courthouse was carried away.

When the storm subsided, cries and screams of children were heard from the colored schoolhouse, where 150 children had been gathered at their lessons. The building, a 2-story frame house, has been torn down and beneath the ruins was a mass of struggling children. So far as known none was killed, but there were many maimed and bruised, some with broken arms and some with fractured skulls.

The full extent of the damage is not known. But the property loss will go into the hundreds of thousands.

Trainmen on the Kansas City, Memphis and Birmingham railroad report that Kelly, Miss., was wiped off the face of the earth, not a soul being left to tell the tale. A special train has left Memphis for Kelly.

Kelly, a small manufacturing place on the Memphis and Birmingham railroad, 15 miles from this city, was wiped out during the storm. Houses were torn apart like tinderblocks, trees and telegraph poles were uprooted. Some portions of roofs and other material were carried four miles.

Tupelo was also visited and destroyed. How many lives are lost can not be ascertained now, but if the destructiveness of the cyclone is as great as meager dispatches reaching here state, it seems probable that the list of casualties will be very large.

Storm at Indianapolis.

INDIANAPOLIS, March 24.—A wind-storm of remarkable violence visited this city at 8:30 o'clock yesterday evening, doing, so far as can be learned, about \$100,000 damage and injuring two persons. The damage was confined to the suburban district northwest.

One of the big mills of the Cerealine company was unroofed, and the roof in falling struck Charles Meyers, a workman, breaking his leg. The third story of the Indianapolis coffin factory was blown off. Next to the factory is a boardinghouse owned by Charles Benhke, which was unroofed, and Mrs. Benhke had her foot crushed.

Bowling Green, Ky., Devastated.

LOUISVILLE, March 24.—It is reported here that a cyclone has devastated Bowling Green, Ky. All wires are down to that point, and nothing definite can be learned.

SENATE PROCEEDINGS.

Nothing Done Outside of a Few Confirmations in Secret Session.

WASHINGTON, March 24.—The senate was in open session for just 10 minutes yesterday. No nominations were sent in to the disappointment of a throng of persons who had gathered about the chamber in hopes of hearing that they were among the fortunate.

Mr. Walthall was appointed one of the directors of the deaf and dumb institute of the District of Columbia in place of Mr. Hawley. A resolution offered by Mr. Call of Florida in regard to the commission to inquire into the several executive departments, upon which Mr. Call proposes to make some observations, was ordered printed and laid on the table.

The senate then went into executive session and confirmed a number of nominations, including E. B. Whitney, to be assistant attorney general. Mr. Whitney was a leading anti-snapper, and it has been predicted that Senator Hill would make a fight against confirmation, but he was confirmed without opposition.

Other nominations were confirmed as follows:

Theodore Runyon of New Jersey minister to Germany.

James G. Jenkins of Wisconsin United States circuit judge for the Seventh judicial circuit.

Walter D. Dabney of Virginia solicitor for the department of state.

Ernest P. Baldwin of Maryland first auditor of the treasury.

Thomas Holcomb of Delaware fifth auditor of the treasury.

Charles B. Stuart of Texas to be judge of the United States court for the Indian Territory.

Joseph W. House of Arkansas to be attorney of the United States for the eastern district of Arkansas.

Clifford L. Jackson of the Indian Territory district attorney for the Indian Territory.

Abner Ganes of Arkansas, United States marshal for the eastern district of Arkansas.

A number of postmasters were also confirmed.

The senate then adjourned till Monday.

No Compromise.

WASHINGTON, March 24.—The Republican senators held a caucus yesterday afternoon and unanimously decided to reject all offers of compromise from the Democrats with reference to reorganization of the force of senate employees at this special session of congress. As a number of Democratic senators are opposed to making a fight and prolonging the session because of these offices it is probable that the present Republican employees will hold on until December.

Death From a Handshake.

BRISTOL, Pa., March 24.—Dennis O'Leary, aged 93, who was buried yesterday, died from the effects of a handshake. He was stopped by a young friend, who grasped his hand and gave it a hearty shake. In doing so he sank his fingernails into the ball of O'Leary's hand. Soon the hand began to swell, and the swelling increased until his shoulder and arm were twice their normal size. He suffered intense pain and nothing could be done for him.

Shipwrecked Crew Landed.

BOSTON, March 24.—The steamer Borderer, which arrived yesterday from London, brought the captain and 20 men of the fishing schooner Iceland of Boston, which was abandoned in a wrecked condition March 20, having been in a hurricane the day before. One of the Iceland's crew, named Joseph Isaacs, was lost.

Forty Persons Killed.

VALPARAISO, March 24.—In Brazil a band of revolutionists entered the town of Allegrata, which they ransacked. The residents resisted the ravages, and in the fight which followed 40 persons were killed. Then the revolutionists abandoned the town.

Her Body Found.

DAYTON, O., March 24.—The body of Mrs. Ellen Collins, who disappeared last Saturday evening from the home of her son, John Collins, at the foot of Ludlow street, was recovered from the canal in that vicinity yesterday. The old lady was nearsighted, and it is supposed that she walked into the canal and was drowned.

Storms in the West.

CHICAGO, March 24.—Advices from the northwest state that one of the most furious storms known for years began yesterday and is still raging. At Duluth a foot and a half of snow fell during the night. Throughout Wisconsin there was almost a cyclone.

Storm Still Raging.

KANSAS CITY, March 24.—Dispatches from Kansas and Missouri say that a severe storm raged generally over the two states last night. At Oklahoma City a number of buildings were blown down, and several of them were burned by lightning.

Crushed to Death.

DELAWARE, O., March 24.—Henry Dunn, a farmer, while feeding a tree on his farm east of here, failed to give warning to his 8-year-old son who happened to be standing in the tree's path. The boy was crushed to death.

Freight Wreck.

LIMA, O., March 24.—A freight train on the Chicago and Erie road left the track at Heppburn, and several cars, loaded with merchandise, were piled up in the wreck. The track was blocked for several hours.

Even in Arkansas.

CRAWFORDSVILLE, Ark., March 24.—A severe wind blew down several houses here yesterday.

STRIKING ENGINEERS

Another Day in the Great Labor Trial at Toledo.

THE DEFENSE ON THE STAND.

The Engineers Testify and One Particular Point is Gained in Their Behalf—Attorney Hurd Taken Ill and Court Adjourned Until Monday—Details of the Day.

TOLEDO, March 24.—The Ann Arbor trouble has resolved itself into purely a Lake Shore matter, at least as far as the officials are concerned, for none of the Ann Arbor officials have put in an appearance in court. They are, instead, busily engaged in marshaling their own forces during the calm occasioned by the trial of the Lake Shore engineers. The strikers are letting the Ann Arbor road severely alone, and all of them are in daily attendance at the courtroom.

Yesterday morning the Lake Shore engineers involved in the case were on the stand as witnesses for the defense. It was the intention of their attorneys to show by their testimony that when they refused to handle Ann Arbor cars they were not Lake Shore employees, having previously resigned. If the engineers knew that the court had issued an order they were very careful to keep away from it and keep themselves in ignorance as to its meaning. They all testify to the same thing—that they knew nothing of the order and were not aware that there were any Ann Arbor cars in the train they were asked to haul. This is the one particular point on which their attorneys will base their arguments. The Lake Shore arguments are trying to make the men tell why they quit work.

Engineer James Lennon was the first witness. The Lake Shore attorneys tried on the cross-examination to make him say that he took orders from the company and was in the employ after he said he had quit. Mr. Lennon was a good witness for his side, as were his associates. He told nothing that he didn't want to, as the following dialogue will show:

"After you left your train and quit, as you say, did not some one in authority ask you to take out 184 later?" This was to show that Mr. Lennon had not really quit.

"Yes."

"What did you say?"

"I said all right, I'll be up."

"Now, didn't that mean that you would be on hand to take the train, and that you were still in the employ and acting under orders of the company?"

"No."

"What did you mean?"

"That I'd be up."

"Up where?"

"Up."

"Didn't he understand by that that you would be on hand to go out? Wasn't it a usual business transaction? What did he understand?"

"I don't know what he understood."

"What idea did you wish to convey?"

"Just what I said."

"What?"

"That I'd be up."

"Up where?"

"Up anywhere."

"Now what did you mean?"

"Nothing."

"What did he think you meant?"

"He thought what he wanted to. I left it open."

The attorney gave it up and changed his tactics.

On several occasions during the morning the courtroom broke into applause when witnesses stated that they would not become scabs. Judge Ricks has threatened to eject anyone making such a demonstration, but as yet he has not done so.

John Conley, one of the men who refused to handle Ann Arbor freight and was arrested along with the brotherhood men, was called as a witness. The defense intends to show, by his testimony, that he quit on his own responsibility; that no organization influenced him; that the brotherhood had nothing to do with his actions, and might have had nothing to do with the action of the other men. He proved a good witness.

"Tell the court why you quit," said the attorney.

"Because I did not think that the Ann Arbor were doing right by their men and I had no desire to help them in forwarding their freight, so I quit before I was asked to do so."

Fireman Leon C. Thompson was another good witness. On being asked by Mr. Southard, attorney for the defense, why he quit, said:

"Because my engineer quit. I didn't care to go out with anyone else."

"Did you quit because you heard of an order to quit?"

"No, sir."

"Were you influenced by any order of an organization?"

"No, sir; I thought it my right to quit, and did so."

Cross-examination—"You say you quit because the engineer did?"

"Yes."

"If the engineer had quit on account of sickness what would you have done?"

"I'd probably have been sick too."

The conductor, who had the much discussed train in charge, was called by the complainant, and by his testimony it was attempted to show that the men quit after they were notified about the cars or before. He was a good witness for the complainant.

The evidence was all in when the noon recess was taken.

When court reconvened in the afternoon the illness of Hon. Frank Hurd, counsel for the engineers, was announced, and court adjourned until Monday morning.

THE BROTHERHOOD'S POSITION.

Chief Arthur Issues an Official Statement on the Strike.

CLEVELAND, March 24.—Chief Arthur of the Brotherhood of Locomotive Engineers has issued an official statement regarding the position the brotherhood occupies in the Ann Arbor strike. It is as follows:

After reading the various comments and criticisms in the different papers on the Toledo, Ann Arbor and North Michigan strike, and Judge Ricks' decision, I feel compelled to state my side of the story. In the first place I find it very hard to make the public understand that I do not order any stoppage of work, and could not if I wanted to. The men themselves vote upon it, and if a majority decides to stop work of course it is done.

In all cases where the engineers and firemen have a contract with railroad companies we have no trouble and find it much the best way to go. The great trouble has been on the small roads, and especially those that take advantage of the men in making them work for less wages and giving no pay for overtime.

In the last case every honorable effort was made to adjust the difficulty, but without success, and here it is said that the men stopped work without giving notice, which is not true, as I myself addressed a letter to General Manager Ashley, on the Toledo and Ann Arbor road, informing him that his engineers and firemen had determined to leave his service at 6 a. m., Wednesday, March 8, thus giving him ample time to decide whether he would grant the reasonable requests of his men or not. H. W. Ashley, the general manager, when I informed him that I would appeal to his father, the president, remarked very abruptly: 'He is an old man and does not know whether I am paying 2 cents a mile or \$2, and must not be disturbed.'

If there had been a head to the Ann Arbor road that believed in living and letting live, we would not have had trouble, but so long as this grinding process is carried out by the railroads, just so long will there be trouble with the companies. An engineer's life is a hard one at best; he must report for duty many times when not able to do so or lose his situation, and if he be a man of family it is not an easy thing to do. Besides, many times the men are made examples of to gratify the petty spite of a superintendent or a master mechanic, and are removed on the slightest pretext. It does not take some men long to forget that they came from a switchman to a superintendent's position, or from a wiper to a master mechanic. All the engineers and firemen ask is fair play, and there will be no trouble.

If men are not at liberty to quit work when at any time it suits their convenience, then certainly the same rule will apply to a railroad company, and deny them the right to discharge a man at any time they choose without consulting his convenience or comfort. We are at any time ready to subscribe to any rule that will apply alike to employer and employee.

P. M. ARTHUR, Grand Chief Engineer, Brotherhood of Locomotive Engineers.

WRECK CAUSED BY IRREGULARITY.

Collision Between a Passenger and Freight Train.

ALBUQUERQUE, N. M., March 24.—There was a collision between a passenger and freight train last night at Exeter, near Ash Fork, on the Atlantic and Pacific, in which Engineer Robert Young and a fireman were killed.

The wreck, it is claimed, was caused by irregularity, resulting from the trouble between the company and employees, who are members of the Brotherhood of Railway Employees. Young was a member of the order; the wreck can not be charged to the brotherhood. Much feeling is expressed among the men against the federal court for making a restraining writ returnable at a distant day.

CELEBRATED CRONIN CASE.

Preparations Being Made For Its Retrial In Chicago.

CHICAGO, March 24.—Preparations are now under way for retrial of the celebrated Cronin case. What is being done, however, is in a quiet manner. Coughlin was visited Thursday by Attorney Forrest, who was accompanied by John A. Qualey, one of the attorneys who figured in the defense. Later they interviewed State's Attorney Kern. Qualey has been living in New York. He personally attended to much of the work in getting the defense's witnesses together during the former trial.

Coughlin is fast regaining his old-time appearance. He was once a big, stout fellow, but lost weight while cutting stone in the penitentiary.

Rescued From a Burning Building.

PITTSBURGH, March 24.—Policeman Polan of the Thirty-sixth Ward Police station rescued the 10-year-old son of Patrick Turner from a burning building on West Carson street, near Painter's mills, early yesterday morning. The other members of the family were away and the boy was alone in the house when it caught from the explosion of a coal oil lamp. The boy was asleep in bed.

Didn't Do Very Much.

BOSTON, March 24.—News has been received here of the arrest at Omaha, of Francis, alias Frank Adams, who is wanted by the Boston police for alleged grand larceny. He became advertising solicitor for a Boston paper, swindled a jewelry firm out of \$2,000, drugged a woman of his acquaintance and tore diamond earrings from her ears and then fled.

Canadian Immigration.

OTTAWA, March 24.—The annual report of the interior department, made public, shows that there were 52,000 immigrants landed in Canada last year and that 518 American citizens bought land and became citizens of Canada.

BIG CONFLAGRATIONS

Two of Them Occur in Cleveland in One Day.

SIY LIVES LOST IN ONE FIRE.

Five Women and a Baby Suffocated in an Apartment House Fire—A Blaze Breaks Out in the Indiana Penitentiary at Jeffersonville—Other Fire Losses.

CLEVELAND, March 24.—Two big conflagrations kept the fire department busy here yesterday and six lives were lost. About noon fire broke out in the Morgan, a fashionable apartment house on Prospect street near Granger. The engines responded quickly, but before help arrived the building was enveloped in flames and smoke, and a terrible panic ensued. Five women and a baby were suffocated. The names of the victims were:

Mrs. Mary Abbey, widow of the late Judge Abbey.

Mrs. P. G. Somers, a blind woman, aged 40.

Mrs. Emma Somers, her stepdaughter.

Mrs. F. R. Hunt, daughter of Mrs. Emma Somers, and Percy Hunt, her son, aged 18 months.

The blind woman was terribly turned, while the others died from suffocation. The baby boy was alive when taken from the building, but died a few minutes after being rescued.

The injured are:

Dr. Con Von Klein, face and hands burned in rescuing inmates.

Mrs. J. H. Miller, who gave the alarm and jumped from a second-story window, badly bruised.

Mrs. F. M. Gifford jumped from an upper window and was caught in a blanket.

Mrs. Sampliner, badly burned in rescuing her daughter.

The loss on the building is estimated at about \$18,000; insurance, \$12,000. Mrs. M. M. Hanna, who was the lessee, will lose \$12,000 on furniture. The losses to the tenants will foot up \$10,000.

The house was a handsome one of three stories. A central hall ran through the building with the rooms on either side. The only escape was by the front stairs. Those in the third story had no time to get their goods together, and before they were aware of any fire they were surrounded with flames and smoke. The scene was a terrible one, and the excitement and consternation of those in safety, who were unable to aid the suffocating women, was great.

The body of the first woman found was that of Mrs. Sommers, a blind lady who had groped her way to the stairs only to die. The other women and child were found lying on the floor of the second story of the front hall dead, suffocated by the smoke. Their bodies were huddled together, but it was evident from their positions that they died without pain.

The fire started, no one knows how, in the basement, and the building is a total loss.

The second big blaze occurred at the lubricating oil works, situated in the southern part of the city. A second and third call for extra engines was sent in, and after a hard fight the flames were subdued.

FIRE IN A PENITENTIARY.

Many of the Inmates Barely Escape With Their Lives.

JEFFERSONVILLE, Ind., March 24.—Fire which broke out at noon yesterday in the Indiana prison south, caused a loss to Contractor Claggett of \$50,000, and damage to other buildings of \$25,000. None of the convicts was seriously hurt and none escaped. The fire was not discovered until it had gained great headway, and many of the inmates had barely time enough to escape without injury.

The fire department of the prison was unable to check the flames, which communicated to that part of the prison in which are the dininghall, the tailorshop and the hospital, in the latter being the insane prisoners. All of the inmates were safely removed and the fire department of Louisville was telegraphed to for assistance. The Louisville firemen responded at once, and with the prison force and that of the Ohio Falls carworks, got the fire under control.

A WOMAN FATALLY BURNED.

Disasters Attendant on a Fire at Binghamton.

BINGHAMTON, N. Y., March 24.—The O'Neill block, a 4-story structure at 178 Washington street, was gutted by fire 3 o'clock yesterday morning. The upper floors were divided into apartments occupied by a large number of families. All were cut off from escape and were rescued with difficulty from the roof by firemen.

A bystander rescued Mrs. Etta Fancher from her room, where she had fallen unconscious. He lowered her to the ground by means of a rope around her waist. The woman was terribly burned and will probably die. The loss is estimated between \$30,000 and \$50,000.

Fire in Pittsburg.

PITTSBURGH, March 24.—The Roberts Manufacturing company's plant on Smallman street, between Twenty-sixth and Twenty-seventh, together with two frame buildings and a 3-story brick building owned by Benedict Boehm, were destroyed by fire last night. The loss is estimated at \$30,000.

At Cleveland, Mississippi.

CLEVELAND, March 24.—A cloudburst and storm destroyed considerable property in this vicinity yesterday. No lives were lost.

WEATHER INDICATIONS.

Local rains; southerly, shifting to west-
erly winds; much colder Friday night; the
temperature will fall 20 to 40 degrees by
Saturday morning.

FALMOUTH is waking up from her long
sleep. A fine creamery has been lately
established there, the stock has all been
subscribed for a big cannery and an
electric plant is now talked of. Who
will be the first to start a new enterprise
in Maysville?

THE sixth shoe factory at Portsmouth
will be completed and in operation within
the next sixty days. We remark again
that the Portsmouth people know a
good thing when they see it. It wasn't
a great many years ago when an enter-
prise of this kind couldn't be found in
that city. Now there is but one other
city in Ohio that manufactures more
shoes than Portsmouth.

The Latest Wonder.

The exhibition of Gray's "Telauto-
graph" at the Home Insurance Building
in Chicago this week was a perfect suc-
cess. The receiving machine elicited ex-
pressions of astonishment from all who
saw it. Sentences written in New York
were transcribed in Chicago perfectly.
The electric pen dotted its i's, crossed its
t's and moved in a way that seemed
human. There were many present, and
the spectators were coming and going all
the afternoon. Nothing since the phono-
graph has excited so much wonder and
admiration.

Was not Poisoned.

The postmortem examination yester-
day afternoon of the remains of Blanche
Bulger, the colored child whose death has
been mentioned, set at rest the ugly
rumors that had been noised about. It
was not a case of poisoning. The ex-
amination was made by Dr. Phillips, who
found that death had resulted from cere-
bro spinal meningitis.

The report that the child died from an
overdose of whisky originated from a re-
mark she made when first taken sick,
that she was drunk. She had been dan-
cing a few minutes before and was seized
with dizziness, as a result of the exercise
and of the congestion of the brain caused
by the disease.

Was Married, All the Same

Albert Green, colored, appeared at the
County Clerk's office yesterday and ob-
tained license to marry Fannie Bell. She
was on the street near by waiting for his
return. He soon appeared, but just about
that time Sheriff Jefferson also appeared
and placed Green under arrest, and
marched him before Squire Miller, to
answer a charge of seduction preferred
by Josie Jones. The case has already
been mentioned.

Albert gave bond in the sum of \$200
and was released. Nothing daunted by
his arrest, he and Fannie Bell at once
hunted up a preacher and were married.
Green's trial is set for next Tuesday at
10 a. m. before Squire Miller.

"Damon and Pythias."

The Riley Dramatic Company gave a
very pleasing production of the above
play last night at the opera house. In
fact it was somewhat of an improvement
of their performance of the same play
last November. The parts of Damon
and Pythias were well taken by W. H.
Riley, and Mr. T. B. Alexander. Mr.
Geo. M. Hays and Miss Helen Vaughn
were equally as clever in their roles. The
mirth-provoking farce comedy, "The
Orient," gave Mr. Tony Cummings a
chance to display his comedy ability and
he did so to the entire satisfaction of the
large audience. To-night the comedy
drama, "The Ticket of Leave Man," To-
morrow afternoon a grand family matinee
will be given at which \$2.50 in gold will
be given away.

The Blue Grass Fair Circuit.

The Blue Grass Fair Circuit, composed
of five mile tracks and six half-mile tracks,
is annually the field on which many nota-
ble turf battles are waged, and it is prob-
able that the season of 1893 will be
marked by contests equally as hard-
fought, and with results equally as hon-
orable to the victors, says the Stock Farm.
The horse that goes down the line in this
circuit, winning in his class, is entitled to
rank with the notables of the year, and
the reputation gained puts him in a po-
sition to bring a long price in the market,
or to command a strong patronage in the
stud. Therefore, it will pay the owners
of promising colts to enter them in the
meetings of this circuit. The pneumatic
tire has made the half-mile track almost,
if not quite, equal to the mile track, both
as to speed and to safety, and no horse is
too good to trot over a good half-mile
course.

MISS LAURA PERKINS, of Minerva, died

sistant Cashier—both ex-Maysvillians. The
paid-up capital of the consolidated bank
is \$150,000.

LESLIE COUNTY has a population of
5,000. Among this number are only sev-
enty-six Democratic voters, says the
Jackson Hustler. Annually \$11,000 is
paid out to pensioners, and there are but
three rebel soldiers living in the county,
and only two Federal soldiers who vote
the Democratic ticket. There is not a
single foreign born resident.

OF INTEREST TO DENTISTS.

The State Senate Passes a Bill to Regulate the Practice--Redistricting Other Legislative News.

The State Senate passed a bill yesterday to regulate the practice of dentistry in Kentucky. The bill provides that it is unlawful to practice dentistry unless the person has received a diploma from the faculty of a dental college authorized by the laws of this State, some other State, a foreign country or a certificate of qualification issued by the Kentucky State Dental Association. Any person failing to comply with the regulations of the law is guilty of a misdemeanor, and liable to a fine of not less than \$50 nor more than \$250. Physicians and surgeons are not barred from extracting teeth. The Board of Examination is allowed compensation under the laws of the association.

The Corporation bill, which has been pending for a year or more, is nearly ready to go to the Governor again. It is predicted that he will not sign it. Neither will he veto it, but will allow it to become a law without his signature.

The Senate passed the bill appropriating \$25,000 for the maintenance of the State Board of Health.

The House postponed indefinitely the joint resolution authorizing the Kentucky State Guards to hold their annual encampment at Chicago next summer. The resolution may be called up by a majority vote. But it will not be adopted till the Frankfort muddle over the payment of some outstanding claims against the military department are settled.

In the House the Committee on Public Health reported favorably the Senate bill relating to empiricism with amendment which shuts down tighter upon quack and itinerant doctors. The amendment was concurred in and the bill passed, which gives the State Board of Health the authority to pass upon all certificates granting the privilege to practice medicine in this Commonwealth.

Under the bill passed by the Senate redistricting the State into 100 Representative districts the counties of Carroll and Gallatin are entitled to one Representative, whereas heretofore they have had a Representative each. Bracken is detached from Robertson and given a Representative straight. Robertson and Nicholas are united and given a joint representation.

The Record, of Paris, says: "Mr. Alex. Piper was here Thursday looking for a residence, and it is reported he made handsome bids for two or three pieces of property."

Says the Dover News: "Colonel A. C. Respass, of Maysville, declares that he is not an applicant for Commissioner of Internal Revenue. However, make a note of it that the Colonel is not out of the race by big odds. Keep your eye on him."

In 1884, when the present school law went into effect, the School Commissioners then in office were legislated out. The Commissioners claimed pay for the remainder of their term amounting in the aggregate to about \$20,000. Quite a number of them united in a test suit which they won in the lower court but which has just been reversed by the Superior Court.

Mrs. FANNIE SUMMERS and Mrs. Margaret Martin, of Georgetown, have each donated \$10,000 to the endowment of the new theological seminary at Louisville. Mrs. Summers will endow the Chair of Pastoral Theology, which will be known as the Fannie Tucker Summers Chair, and Mrs. Martin will endow the Chair of Homiletics, which will be known as the Margaret Martin Chair.

By the request of several of Maysville's physicians Optician Louis Landman, of 159 Elm street, Cincinnati, Ohio, is at Aberdeen, Ohio, at the hotel, where he will remain until late this evening. He reports a large number of Maysville people over yesterday to consult him and secure proper glasses. He expects many more to-day. References: Every leading physician in Maysville.

THE Maysville correspondent of the Covington Commonwealth sends his paper the following: "There is nothing like money and borrowers are always ready to take it. Three local building associations and four banks in Maysville have loaned out over \$2,000,000. The sum represents over one-fifth of the total assessment of the county. The amount loaned privately would largely increase the above figures."

HENRY MOORE, who was arrested in Bourbon County on a charge of horse stealing, was brought down by Constable Dawson and taken over to Brown County where the alleged offense was committed. The horse was stolen some miles back of Aberdeen, and brought to that town and sold. The buyer gave his notes for a part or all of the purchase money, and Moore discounted the notes and got the cash. He then went to Bourbon County where he was found at work on a farm.

THE Mercury says Mr. Alexander Piper, of Mayslick, will move to Carlisle, if he can find a suitable home.

THE year 1893 began on Sunday and it will finish on a Sunday, so that it will contain fifty-three Sundays.

CARLISLE'S creamery is handling about 1,000 pounds of milk daily, and can hardly supply the demand for butter.

PRESIDENT M. E. INGALLS of the C. and O. will soon return to Cincinnati and make that his permanent residence.

REV. D. W. ROBERTSON, of Millersburg, is assisting Rev. Talliaferro in a protracted meeting at the Carlisle Methodist Church.

CLAYTE WOODS, charged with setting up a "crap" game at Lexington, was jailed in default of \$3,000 bail. His prospects for a term at Frankfort are good.

JUDGE W. M. BECKNER, of Winchester, has been chosen one of the Vice Presidents of the World's Educational Congress which meets soon at Chicago.

THE News says Dover has more loafers to the square yard than any other town in the State. "It's a mystery," adds the News, "how they exist without work."

OWING to the recent heavy losses by fire at Covington insurance rates on all business and manufacturing houses of that place have been increased 20 percent.

MISS MAGGIE FITZGERALD has accepted a position with Nesbitt & Co., the Sutton street merchants, and will be pleased to wait on her friends when they are in need of dry goods.

A FINE cow belonging to Deputy Marshal Stockdale was struck and killed in the Fifth ward yesterday by the C. and O.'s westbound Huntington accommodation. The animal was afterwards appraised at \$50.

IT'S still a question whether Hawaii will be annexed or not, but it was settled long ago that Ballenger's is the best place in Maysville to buy jewelry. His stock is always complete, embracing the latest novelties, and his goods are guaranteed.

THE News is authority for the statement that Mrs. Hannah Phipps, of Dover, aged eighty-four years, is cutting a tooth. Mrs. Phipps is quite nimble for her years, the News adds, and does all her own housework and in addition cultivates her own garden every season.

MASON COUNTY composes the eighty-six Representative district under the bill passed by the State Senate and now pending in the House. Bracken composes the eighty-fourth, Nicholas and Robertson the eighty-fifth, Fleming the eighty-seventh, Rowan and Bath the eighty-eighth and Lewis the eighty-ninth.

THE remains of Miss Elizabeth Dewees were interred yesterday afternoon at the Maysville Cemetery, after funeral services held at the home of Mrs. Samuel B. Poyntz. Deceased died suddenly at Cincinnati the day before. She was seventy years of age, and was a sister of Mrs. Poyntz. Hers was the first death in a family of six sisters.

PURELY PERSONAL.

Mr. James K. Stroufe, of Lexington, is in town on business.

L. B. Dawson and brother left yesterday for Bagley Station, Wis.

Mr. James W. Pearce, of Cincinnati, was in town yesterday on business.

Mrs. C. F. Tyler, wife of ex-President Tyler of the Denver Mining Exchange, shot herself Thursday afternoon in the right temple, death being almost instantaneous. Mrs. Tyler has had brain trouble lately and was no doubt temporarily deranged when she shot herself. The family is one of the best known in that city.

Efficiency of Ballot Reform.

The complete success of the reform system in so large a proportion of the states makes certain its speedy adoption in the remaining states. At the beginning of the present year the only states still without it were Kansas and Idaho in the north, and Alabama, Florida, Georgia, Louisiana, North Carolina, South Carolina and Virginia in the south. All these ought to have it embodied in their statutes before the next presidential election comes around, and the chances are that all of them will do so. In no part of the country is the reform more urgent or more salutary in its results than in the south. It subjects the negro voters to the same test of intelligence which is imposed in the north, and thus removes all ground of complaint in case a portion of such voters are not able to exercise their rights of suffrage.

It is estimated by the leaders of Tammany Hall in New York city that the new system deprives them of from 8,000 to 10,000 votes in every election, because of the inability of the most ignorant voters to cope with the requirements of the law. The exclusion from the polls of voters so densely ignorant as this, whether they be in the north or the south, or whether they be black or white, is far from being a public misfortune, and is also far from constituting a defect in the new voting method.—Century.

Complete Manhood and how to attain it.

At last a medical work that tells the causes, describes the effects, points the remedy. This is scientifically the most valuable, artistically the most beautiful, medical book that has appeared for years; 96 pages, every page bearing a half-tone illustration in tints. Some of the subjects treated are Nervous Debility, Impotency, Sterility, Development, Varicocele, The Husband, Those Intending Marriage, etc. Every man who would know the grand truths, the plain facts, the old secrets, and the new discoveries of medical science as applied to married life, who would atone for past follies and avoid future pitfalls, should write for this wonderful little book. It will be sent free, under seal. Address the publishers, Erie Medical Co., Buffalo, N. Y.

What is

CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhoea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

Dr. G. C. Osgood,
Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

Dr. J. F. KINCHELOE,
Conway, Ark.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. ARCHER, M. D.,
111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practices with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

DAILY BULLETIN:

You know how it is yourself. Doesn't this picture bring up the good days of your youth? How we did enjoy the turkey mother roasted! Well, let us be thankful for the rare blessings vouchsafed us to-day, and with more mature judgment HENRY ORT proposes your good health and invites your attention to the proverb,

"Enough

Is as Good as a Feast."

But at the same time he invites your attention to his stock of goods, such as

EXTENSION TABLES,
DINING CHAIRS,
SIDEBOARDS, ETC.
